ADEBIYI IDRIS

FULL-STACK DEVELOPER

Ilorin, Nigeria | +234-704-578-6141 | adebiyiidris30@gmail.com

linkedin.com/in/hardeyemo | github.com/hardeyemo

PROFESSIONAL SUMMARY

Full-stack developer who builds dependable, production-grade web applications end to end — from responsive, animated interfaces to well-structured backend services and databases. Comfortable owning a feature from architecture through deployment, with a focus on clean code, data integrity, and systems that hold up under real usage rather than just in the demo. Drawn to teams that value senior-level craftsmanship and long-term reliability over quick, disposable builds.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, GSAP, shadcn/ui, HTML5, CSS3, Responsive Design

Backend: Node.js, Express.js, REST APIs, Authentication, Third-Party API Integration

Databases & ORM: MongoDB, Mongoose, Prisma

Auth, Validation & Media: NextAuth/Auth.js, Zod, Cloudinary

Tooling & Platforms: Git, GitHub, Firebase, Vercel, Resend

PROJECTS

RA Homes & Properties — Real Estate Platform

www.rahomesproperties.com — *live production application*

- Built and shipped a full-stack property listing platform for a real estate brokerage, covering public listings search, agent profiles, saved properties, and a property-submission flow.
- Architected the frontend with Next.js, React, TypeScript, and Tailwind CSS, and modeled and queried data with MongoDB via Prisma ORM.
- Implemented secure authentication with NextAuth/Auth.js, schema-validated forms and inputs with Zod, and handled property image uploads and delivery through Cloudinary.
- Set up Resend for transactional email (viewing requests, listing inquiries) and deployed the application to production, where it is actively serving real users.

Education Donation Platform

- Built a user-friendly donation website supporting equitable access to quality education for children, regardless of circumstance.
- Developed the interface with React and Tailwind CSS, using motion/animation to guide donors through the giving flow and reinforce trust at each step.
- Integrated Paystack for secure, reliable payment processing, handling donation transactions end to end.

PROFESSIONAL EXPERIENCE

Full-Stack Web Development

- Designed and built full-stack web applications end to end using React.js, Next.js, JavaScript/TypeScript, and Tailwind CSS, taking each feature from planning through deployment.
- Built and maintained backend services and REST APIs with Node.js and Express.js, structuring data models in MongoDB and Prisma for reliability and easy long-term maintenance.
- Implemented authentication flows, third-party API integrations, and polished UI motion with Framer Motion and GSAP to improve usability without compromising load times.

Frontend & Backend Web Development

- Built responsive, accessible interfaces with React.js, Next.js, Tailwind CSS, and shadcn/ui, and reusable component libraries that kept frontend codebases maintainable as products scaled.
- Designed backend architecture and REST APIs with Node.js and Express.js, connecting frontend applications to MongoDB and external services for dependable data flow.

EDUCATION

University of Ilorin

B.Eng, Agricultural Engineering — Second Class Upper Division
